**DETAILED ACTION**

***Response to Amendment***

1. Claims 36-39 are pending in this application and have been examined.

***Drawings***

2. New corrected drawings are required in this application because the drawings contain information headers directed to now-surrendered US Patent 5,761,301. The corrected drawings are required in reply to the Office action to avoid abandonment of the application. The requirement for corrected drawings will not be held in abeyance.

***Response to Arguments***

3. Applicant's arguments, see amendment filed 4-1-2003, with respect to the rejections of claims 36-39 under 35 USC 103(a) as being obvious over Kato (US 4,503,531) in view of Ikeda (US 5,050,150) and have been fully considered and are persuasive. The 35 USC 103(a) rejections are withdrawn.

***Terminal Disclaimer***

4. The terminal disclaimer filed on 4-1-2003 disclaiming the terminal portion of any patent granted on this application which would extend beyond the expiration date of US Patent 5,761,301 has been reviewed and is accepted. The terminal disclaimer has been recorded.

***Information Disclosure Statement***

5. The information disclosure statement filed 2-24-2003 fails to comply with 37 CFR 1.98(a)(3) because it does not include a concise explanation of the relevance, as it is presently understood by the individual designated in 37 CFR 1.56(c) most knowledgeable about the content of the information, of each patent listed that is not in the English language. It has been placed in the application file, but the information referred to therein for which no translation or statement of relevance has been provided, has not been considered.

***Reissue Applications***

6. The reissue oath/declaration filed with this application is defective (see 37 CFR 1.175 and MPEP § 1414) because of the following: As the Applicant states on page 5, paragraph (4)-(5) of the latest amendment: "A Substitute Declaration, updating the errors corrected is enclosed, as requested by the Office. The Substitute Declaration is a copy of the Substitute Declaration submitted in the co-pending (parent) Reissue application, no. 09/588,364." Therefore the error stated in the Reissue Declaration is the same as that stated in the parent Reissue application and the error will have been corrected in the parent application. The Declaration is objected to on the basis that the error stated no longer exists. See MPEP 1414(II).

7. Claims 36-39 are rejected as being based on a defective reissue declaration under 35 USC 251 as set forth supra. See 37 CFR 1.175.

***Claim Rejections - 35 USC § 112***

8. The following is a quotation of the second paragraph of 35 U.S.C. 112:

Art Unit: 2134

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

9. Claims 36 and 38 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. The claims contain the language of "...readable by a pick-up for reading data recorded on the information recorded on the information recording layer." It is not clear from the language of the claims what characteristic of the bar code is specified by this language. Claims 37 and 39 are dependent on claims 36 and 38 are therefore rejected on the same basis.

### ***Conclusion***

10. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
